**POLYSACK INDUSTRIES**

- Since 1985 experience in woven industries and since 2007 experience in International Trade.
- Exports good Quality as per Customers requirement within committed schedule.
- Complete Transparency in all information & dealings.
- Commitment to rendering impeccable services.

## About Us

Bubna Polysack Industries was established in year 1985 in surat, Gujarat, india. Our Founder & chief mentor Mr. Shyamsunder Bubna deeply realized the scarcity of purposeful quality products in the field of industrial development. Our company takes pride to have introduced different types of quality packaging materials into our customers' various products.

As per our customer requirement we export products made by virgin raw material of pp/hdpe etc. we can customize our products as per order and can provide products in all sizes and scales. Our promising products are outcome of continous R&D and first hand market analysis, even further we take our products through strict quality tests during various stages before supplying.

# Our Products

**PP Woven Bags / Sacks**

**PP Bags** HDPE Woven Bags / Sacks

Ground Cover **Roof Underlayment**

BOPP laminated block bottom valve bags / sacks

**Tarpaulin** Silt Fence Sling Bags

**Geo Textiles** Shade Net

- **BLOCK BOTTOM VALVE BAG**
- **BOPP LAMINATED BLOCK BOTTOM VALVE BAG**
- **FIBC FOR CONSTRUCTION**
- **PP WOVEN BAG**
- **TARPAULIN**
- **GROUND COVER**
- **ROOF UNDERLAYMENT**
- **SILT FENCE**
- **GEO TEXTILES**
- **SLING BAG**
- **SHADE NET**

# Block Bottom Valve Bags

- Block Bottom valve cement bag
- Bopp Block Bottom valve bag
- Block Bottom Open Mouth bag
- Block Bottom Tile Adhesive Bag
- Only Valve type cement bag

PP/HDPE woven Block bottom valve bag is the ultimate solution of leak free packaging. These bags are specially designed with micro holes that help in exhausting the air to increase the efficiency of the filling station & close automatically. This type of bag is very popular in the cement industries for their advance look and stack ability in the warehouse.

These bag have same features as Block bottom Valve Bag with printing on BOPP Film which is very attractive and increases brand value of the company.

# BOPP LAMINATED Block Bottom Valve Bag

# FIBC FOR CONSTRUCTION & MINING

U-Panel, 4-Panel, Circular (Tubular), Conical, Coated/Uncoated  
Big bags  
Baffle or 'Q' Bag (Net baffles/tie baffles/fabric baffles) ig bags  
Food Grade / Pharma Grade /UN certified – HAZMAT FIBC  
Liner Bags: Loose/Glued/Tabbed/Stitched Liners, EVOH Liner,  
Baffle Liner, Aluminium/Foil liner  
Container Liners (PP, PE and LDPE)

FIBC bags are manufactured by polypropylene woven fabrics that are stabilized against UV degradation. Each bulk bag can contain load capacities between 500kgs to 2000kgs with safety of 5:1 or 6:1 (5:1 is for Single use & 6:1 is for multiple use or for UN bags), depending on the bag design and size. Optional LDPE inner liner can be included to provide additional protection against moisture ingress.

These bag provide perfect solution for bulk packaging of any materials.

# PP WOVEN BAG

PP/HDPE bags are widely used for packing various commodities like sand, Coal. Different sizes and multi coloured printed bags are supplied as per customer requirement. Strict Quality parameters are maintained to avoid spillage , leakage

# TARPAULIN

We are engaged in exporting quality assortment of HDPE Tarpaulin. These are manufactured under strict quality test as they are demanded for their tensile strength and longevity & Water proof. We always meet the customized demands of varied sizes accordance to the expectation of our clients

## Ground Cover, & Geo Membrane

Ground cover is used for applications where layer should be installed to prevent weeds from coming up. The material is constructed of PP/HDPE & have longer life.

Geo membrane, made of high density polyethylene Woven core coated with LDPE/LLDPE film. It is specially designed for water containment & water retention applications. It has impressive tensile strength & Dimensional stability makes it suitable for multiple industrial usage.

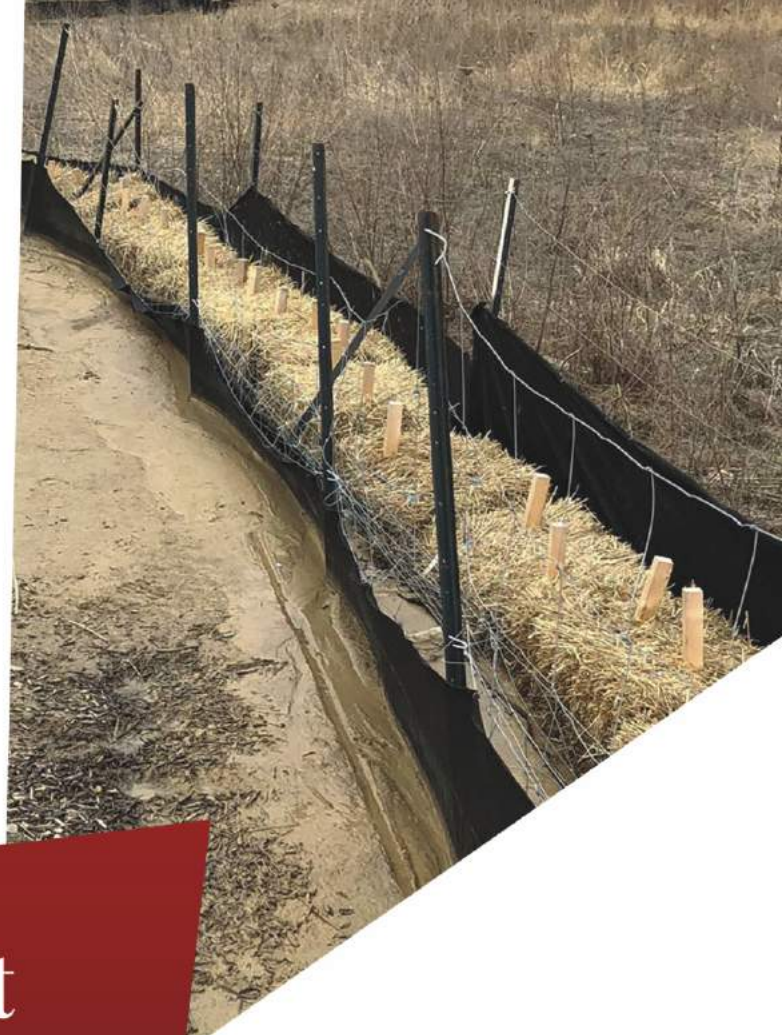

# Roof Underlayment & Geo textiles

Roof wrap is multilayer synthetic underlayment designed to extend roof's lifeline. It is 100% water & air resistant used on residential and commercial buildings

Geotextiles made from woven fabric provides high modulus resistance to stretch which is important to provide stabilization over poorly drained soils. It is used as road base separation layer in various places like streets, parking, driveways etc

# Silt Fence

Silt Fence are used to cover several structures so to prevent contamination, like it is used around highways which helps to prevent roads from contamination. It is also built around water bodies to prevent soil erosion. The fences are made from woven fabric and offer high strength and a controlled level of water permeability.

# Shade Net

Shade nets are primarily used in agriculture to protect crops from harmful direct sunlight. Shade nets filter 70%-90% of UV light allowing only the good rays to pass through the net. They help in cultivation of flower plants, foliage plants, medicinal plants, vegetables and spices. They are also widely used in real estate for safety and sports facilities and private fencing.

# Sling Bags

These bags are used in moving different commodities from one place to another. It is used extensively in construction sites, warehouses etc and is very convenient.

# Our Philosophy

## Our DNA

- Transparency.
- Engaged in Work with detail attention to our shipments. Also by providing satisfaction to our Customers.
- We believe in Team Work.

## Our VISION

- To make Bubna Polysack Industries most admirable organization globally, in the field of PP/HDPE woven products.

## Our MISSION

- To provide widest range of PP/HDPE Woven Products at a best price along with superior quality within minimum time with complete customer satisfaction.

## Our BRAND PROMISE

- Customer will be always our foremost priority.
- Dealing with the customers transparently.
- Providing fair prices to customer.
- Seeking long term association.
- To treat each employees with equality.

## Our IDEOLOGY

### Core Purpose

- Provide end to end cost effective & easily available solutions to the customers using PP/HDPE woven products.

### Core Values & Beliefs

- Customer Satisfaction
- Integrity
- Accountability
- Constant Improvement
- Talent Attraction & Retention

# Countries We Serve

## **EUROPE**

Belgium, Germany, Greece, Italy, Netherland,  
Poland & Portugal, Spain, U.K

## **NORTH AMERICA**

Canada, Mexico, USA

## **LATIN AMERICA**

Brazil, Chile, Colombia,  
Guatemala & Peru

## **ASIA & MIDDLE EAST**

Hong Kong, Lebanon, Malaysia, Oman, Russia,  
Saudi Arabia, Singapore, Sri Lanka, UAE

## **AFRICA**

Botswana, Congo, Ethiopia, Ghana, Kenya,  
Madagascar, Mauritania, Mauritius, Morocco,  
Mozambique, Senegal, Somalia, South Africa,  
Sudan, Tanzania
